

**REGISTERING WITH SOUTH UIST MEDICAL PRACTICE AS A TEMPORARY
RESIDENT, IN ORDER TO OBTAIN REPEAT MEDICATIONS**

Please note that we are able to supply temporary residents, in certain situations when they have run out / come without repeat medications to the island.

This may involve us having to order in stock not routinely held by us, or extra stock to accommodate supply needs.

Because of this, the service we give should not be relied upon as a convenience – temporary residents should not use the service again in order to supply repeat medications that should be ordered and supplied by their own GP Surgery and Pharmacy.

It is every patient's responsibility to order and obtain repeat medications BEFORE expected travel to different areas, and we encourage South Uist Medical Practice patients to pre-plan and obtain medication from us before going off island, and as a small dispensing practice we anticipate a reciprocal approach from visitors.

Thank you for your understanding

Dr Stephen Bird
